Claims 26-63 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group II, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/20/07.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Malderen WO 99/35499.

Malderen discloses an optical sensor that comprises an optical storage medium (CD, DVD page 4 to page 5, page 11), a sensor film comprising a polymer support in combination with an analyte specific reagent applied to the optical storage medium (page 7, line 16, page 8, page 9). Malderen discloses the polymer support is a gas-permeable polymer (page 9-10). The analyte specific reagent is selected from organic fluorophores (claim 6).
